

# Test Specific Features in Detail (Takealot)

## Approach:

I'll test each feature separately with focused test cases to check edge cases, validations, user experience, and functionality.

## 1. Shopping Cart Testing

## 2. Checkout Process

# Testing

## 3. Payment Testing

## 4. Order Confirmation Testing

## Observations & Suggestions:

## Observations:

- Shopping cart functionality is

stable.

- Checkout process has proper form validation.
- Payment page is clear and secure.
- Order confirmation flow is working as expected.

## **Improvement Suggestions:**

- Add success message after

saving delivery address.

- Highlight invalid fields more clearly during checkout.
- Auto-scroll to error fields during form submission failures.
